

12v solar battery charger nz

What is a solar battery charger?

Very simple to use solar battery charger that is perfect for infrequently used vehicle, boat, tractor or house batteries. The unit will trickle charge your batteries and keep them from self-discharging if left too long. The unit can be mounted to the dash using suction cups and is a great solution to do away from idle battery discharging.

What can you charge with a 12V solar battery charger?

A 12v solar battery charger can be used to charge mobile phones, mp3 players, iPods, and notebook PC. You can also charge electricity-powered bikes and cigar lighters when they are not in use. Countless 12v appliances like coffee pots, pans, electric kettles, and fans can easily be charged with this 12v solar battery charger.
