What is 18650 battery data sheet?

The data sheet specification describes the technical parameters and standard tested output of each for the particular component or module. Here we have discussed 18650 battery data sheet, on paper it's a li-ion rechargeable cell supplied by various electronics manufacturing companies.

How to make 18650 battery pack?

To make the battery pack, you have to connect the 18650 cells together by means of Nickel strips or thick wire. Generally, Nickel strips are widely used for this. In general two types of nickel strips are available in the market: nickel-plated steel strips and pure nickel strips. I will suggest buying a pure nickel.
