

2023 energy storage tender

Is 2023 a good year for energy storage?

It's been a positive year for energy storage in 2023, with new markets opening up and supply chain bottlenecks and price spikes for battery energy storage systems (BESS) easing, though challenges remain. A roundup of the biggest projects, financing and offtake deals in the sector that Energy Storage News has reported on this year.

What's happening in the energy storage sector in 2023?

A roundup of the biggest projects, financing and offtake deals in the energy storage sector that we have reported on this year. It's been a positive year for energy storage in 2023, with new markets opening up and supply chain bottlenecks and price spikes for battery energy storage systems (BESS) easing, though challenges remain.

Will 9% of energy storage capacity be added by 2030?

We added 9% of energy storage capacity (in GW terms) by 2030 globally as a buffer. The buffer addresses uncertainties, such as markets where we lack visibility and where more ambitious policies may develop that we haven't predicted. We revised our buffer calculation methodology in this market outlook.

How much money will be allocated to storage projects in 2023?

Residential batteries are now the largest source of storage demand in the region and will remain so until 2025. Separately, over EUR1 billion (\$1.1 billion) of subsidies have been allocated to storage projects in 2023, supporting a fresh pipeline of projects in Greece, Romania, Spain, Croatia, Finland and Lithuania.

How many gw/99gwh will BNEF deliver in 2023?

(Chart above corrected to present latest data on October 4, 2023.) BNEF clients can access the full report here. Three years into the decade of energy storage, deployments are on track to hit 42GW/99GWh, up 34% in gigawatt hours from our previous forecast.

How many GWh is a battery buffer in 2022 & 2023?

In this iteration, we based the buffer on battery shipment analysis, where we identified gaps in historical and near-term battery demand and applied that forward. Based on our analysis, we added a buffer of 485MW/1.9 GWh in 2022 and 1.9GW/5.1GWh in 2023. We added a 10% buffer each year from 2024 to 2030.

Germany's innovation tender is at a crossroads. While solar auctions are booming in Germany, their restrictive design has led to lower ...

India's Union Budget for 2023-2024, announced by Finance Minister Nirmala Sitharaman (centre) earlier this year in New Delhi, gave the ...

These tenders, first issued in 2023, are demand profile-driven to ensure firmness and dispatchability of

2023 energy storage tender

renewable energy and create a win ...

NTPC Renewable Energy is accepting bids to develop 1.5 GW/9 GWh of cumulative energy storage capacity on a build-own-operate basis anywhere in India. It will use ...

The Hungarian government has allocated HUF 62 billion (EUR 158 million) for energy storage projects with an overall 440 MW in operating ...

Energy storage capacity additions will have another record year in 2023 as policy and market fundamentals continue to propel the industry Data compiled March 2023. Source: S& P Global ...

The Hungarian government has allocated HUF 62 billion (EUR 158 million) for energy storage projects with an overall 440 MW in operating power. Hungarian authorities ...

PGE is planning to launch a tender for a large-scale energy storage facility in Zarnowiec with a capacity of up to 263 MW and a minimum ...

The government of Spain, through the Institution for the diversification and energy savings (IDAE) has awarded 880MW/1809MWh in its first tender for energy storage to ...

JSW Renew Energy Five given the official notice to go ahead with battery storage projects awarded by Solar Energy Corporation of India.

Spain's ministry for the ecological transition said on Friday it will allocate EUR 700 million (USD 799.4m) in grants through competitive tendering to support large-scale energy ...

U.S. Energy Storage: During the first quarter of 2023, the newly added energy storage capacity reached 0.78GW/2.145GWh, representing a year-on-year reduction of 11.3% and 22%, ...

According to Mercom India Research, solar auctions increased 86% year-over-year (YoY) in the third quarter of 2023, and tender activity saw ...

The Republic of Maldives has launched a tender process, seeking to procure battery energy storage systems (BESS) in an energy transition project supported by Asian ...

The Energy and Research Institute (TERI) has invited bids to implement 20 MW/40 MWh battery energy storage systems (BESS) in Delhi ...

The latest Innovation Tender in Germany has concluded, with 32 solar-plus-storage projects totalling 408MW awarded contracts.

2023 energy storage tender

A roundup of the biggest projects, financing and offtake deals in the sector that Energy Storage News has reported on this year.

India's drive for renewables has accelerated the need for storage, but there are many factors to success, writes Charith Konda of IEEFA.

Around the time of the 2023 auction, research firm LCP Delta wrote that Poland would lead BESS deployments in the Central and Eastern Europe (CEE) region with around 9GW of projects ...

JSW Energy subsidiary JSW Renew Energy Five had won a competitive solicitation for standalone battery energy storage hosted by SECI. The developer received a letter of award ...

India witnessed awards of 8 gigawatts (GW) of energy storage tenders, allocating 60% of these in 2023 alone, an IEEFA report said.

The Chilean authorities want to contract 5,400 GWh of power from renewable energy, while also including battery storage. The selected developers will secure 20-year ...

Storage tenders 2 storage tender rounds planned: 1st round: Q3 2023 (tender call to be published soon) 2nd round: Q2 2024 Projects to be completed until 2026-2027 (in 36 months), if not met, ...

Tenders for gigawatts of "firm and dispatchable" renewable energy have been launched in India by state-owned or administered enterprises.

India has awarded a cumulative grid-scale energy storage system (ESS) capacity of more than 8 GW in tenders as of November 2023, ...

The Indian Energy Storage Tender Landscape - Multiple Innovations, some hits and some misses Source: Tender nodal agency websites, compiled by Debmalya Sen Note: ...

RAAEY - Greece's newly formed regulatory authority for waste, energy, and water - has revealed that the country will allocate 1 GW of new energy storage capacity. The ...

The government of Spain, through the Institution for the diversification and energy savings (IDAE) has awarded 880MW/1809MWh in ...

The "Global Lithium-Ion Battery Supply Chain Database 2023," published by InfoLink, shows the shipment of energy storage cells reaching 94.6 GWh in the first half of this ...
