

# Aa 5060114614185 solar powered car battery charger

What is the AA solar panel car & caravan battery charger?

The AA Solar Panel Car & Caravan Battery Charger is ideal for vehicles that have occasional use, or are used for short journeys. It extends battery life by keeping the battery in a good state of charge. The AA Solar Charger is easy to install and is fitted with a flashing blue LED light to indicate charge.

How does the AA car battery solar-powered charger work?

The AA Car Battery Solar-Powered Charger will trickle charge and maintain a 12V vehicle battery whilst the vehicle is parked by converting light energy during daylight hours into 12 volts DC. The AA Solar Charger is easy to install by plugging directly into the EOBD socket and is fitted with a flashing blue LED light to indicate charge.

How do I install the AA solar charger?

The AA Solar Charger is easy to install by plugging directly into the EOBD socket and is fitted with a flashing blue LED light to indicate charge. There is built-in discharge protection as well as reverse polarity protection to ensure that the charger will not overcharge your battery.

Will the solar charger overcharge my battery?

There is built in discharge protection as well as reverse polarity protection and the Solar Charger will not overcharge your battery. The 'THINFILM' technology allows a wider spectrum of natural light to be absorbed, meaning the unit can still generate electricity under cloudy winter conditions.
