

Ae solar battery

What is AE Solar?

AE Solar is a leading Tier1 German solar module manufacturer. It has maintained a perfect balance between quality and price through its latest product series. The R&D team of AE Solar has introduced 2 new product series - AE Solar's Aurora and Thunder- for the Swedish audience, available at the local distributor TEOB Solar.

What are ae solar meter solar panels?

AE Solar "Meteor" range of solar panels utilize latest cutting edge N-Type TOPCON technology to deliver unparalleled module efficiency of up to 22.47%. These solar panels use bifacial solar cells, which means that the panel is capable of absorbing direct sunlight from the front side, and diffuse or reflected light from the rear side of the panel.

Why should you choose AE solar modules?

All of our AE solar modules are constantly tested and measured during their manufacture. Therefore we can provide our customers with first-class quality. Our AE solar modules are internationally recognised and certified. Only in this way can we provide the quality, durability and performance which we promise our customers.

Why should you choose AE solar?

AE Solar has a large product range of modules from 80 watts to 360 watts. All of our AE solar modules are constantly tested and measured during their manufacture. Therefore we can provide our customers with first-class quality. Our AE solar modules are internationally recognised and certified.

Where is AE Solar headquartered?

AE Solar, founded in 2003 and headquartered in Königsbrunn (Germany), has an annual production capacity of 2.5 GW in its plants located in Europe and Asia, also with subsidiaries in Mexico (since 2017), Brazil (since 2018) and Saudi Arabia (since 2018).

Which solar module has the highest efficiency?

THUNDER AE Solar Thunder (AE 400SMB-66F) solar module delivers the highest efficiency of 21.3%, which is unmatched for a solar module of its size. Thanks to its advanced shingle cell layout technology, at only 1.64m in length, Thunder solar panel is amongst the most powerful panels of this size available on the market today.
