

Aegis vape mod solo battery

What is a geekvape aegis solo 3 mod?

Geekvape Aegis Solo 3 Mod (Built In B... The Geekvape Aegis Solo 3 Mod offers powerful performance with its 100W output and built-in battery. With its durable design and advanced technology, this mod provides a reliable and long-lasting vaping experience. Experience the perfect balance of power and convenience with the Aegis Solo 3 Mod.

Does aegis solo 3 have a battery?

The Aegis Solo 3 is IP68 rated and can fire at up to 100W. It features a bunch of modes including SMART mode, power mode, and TCR, among others. One of the most interesting features of the Aegis Solo 3 is that it's available with either a built-in 3000mAh battery or as a single battery mod that takes an 18650 battery.

Is the Aegis Solo a good vape mod?

The Aegis Solo is a simple, reliable, and efficient vape mod for wattages up to 60W. Although it can go up to 100W, it doesn't truly reach that wattage. Vaping it at wattages higher than 60W will drain the battery considerably fast.

Does aegis solo 3 come with a geekvape Z sub ohm tank 2021?

The Aegis Solo 3 kit comes with the Geekvape Z Sub-Ohm Tank 2021. This is a tank that Geekvape has been producing for quite some time now and there's a reason why it's still being included even with their latest devices - it's really good. The kit comes with two bubble glasses which each give the tank a 5.5ml ejuice capacity.

Are there any new single battery vape mods coming out in 2024?

There aren't too many new single battery vape mods being released in 2024 and Geekvape has really delivered with the Aegis Solo 3.

What makes aegis solo 3 so good?
