

Arizer solo 2 battery reddit

Is the Arizer Solo 2 worth the investment?

The Arizer Solo 2 offers several improvements over the original, including a more powerful battery that lasts for approximately 3 hours (as advertised by Arizer). Another significant advantage is the ability to charge the device while using it. The digital display enhances the user experience.

Can I replace my arizer solo battery?

The Solo Battery is covered under a limited 1-Year warranty and is also available for purchase upon request. To inquire about replacing your Solo Battery send us an email to: service@arizer.com. Arizer Batteries should not be substituted for third-party batteries -- Only use official Solo Batteries with your Arizer Solo.

What are the pros and cons of the Arizer Solo 2?

The Arizer Solo 2 is my new favorite vape according to this reddit user. The only comment mentioned is the 4 second minimum delay to power the device on. It can be set to a longer time if required (if you are carrying it in a handbag, it may be required).

Is arizer solo 2 a good vape?

Im glad I made the switch. Arizer solo 2 is my main driver, peace. Yeah same dude I just used mine for the first time last night and had a blast. This is my second vape, it's definitely a step up from my first one. The taste was great and I don't even mind the chamber being on the smaller side.

How long does the arizer solo battery take to charge?

The battery will take 3-4 hours to fully charge, or longer if you use it while charging. If your battery is running low, with the Arizer Solo you don't have to wait for the battery to charge before you can use it. Just plug it in, set the temperature, and use the Solo while the battery continues charging.

What do you like most about the solo 2 by arizer?

The best feature of the Solo 2 by Arizer, according to me, is the premium-finish packaging. This is a significant improvement from the plain brown cardboard boxes that Arizer has used historically for their products.
