

Arizer solo battery dead

How long does the arizer solo battery take to charge?

The battery will take 3-4 hours to fully charge, or longer if you use it while charging. If your battery is running low, with the Arizer Solo you don't have to wait for the battery to charge before you can use it. Just plug it in, set the temperature, and use the Solo while the battery continues charging.

How long do arizer batteries last?

Arizer Batteries meet rigorous quality standards. With normal use they will last for hundreds of charge cycles before losing any capacity. Dropping the battery or the unit can result in battery damage that may limit/reduce the battery capacity quickly, so it is important to handle your unit carefully.

How do I conserve the battery life of the arizer solo?

To conserve battery life, use the Arizer Solo in a temperature controlled environment and use the lower temperature settings. When outdoors, stay sheltered from the elements and avoid using in extremely cold temperatures. Charge the battery as necessary.

How should arizer Solo II be stored?

Arizer Solo II should be stored in a safe, temperature controlled, cool, dry place. Do not store in extreme temperature environments. Extreme heat or cold can damage the device and/or battery. Do not store your Solo II with a fully charged or fully drained battery for extended periods of time (one month or longer).

How much does a arizer solo hold?

The Arizer Solo one holds about 50% more than the original one. Replacing it is very easy, don't worry about that. Just curious- how much did you use it before the battery wore out?

Can I tamper with the arizer Solo II battery?

Do not tamper with or misuse the Arizer Solo II Battery, and do not use damaged/defective batteries or Solo II devices. Arizer Solo II should be stored in a safe, temperature controlled, cool, dry place. Do not store in extreme temperature environments. Extreme heat or cold can damage the device and/or battery.

Using a small flat tip screwdriver, carefully pry open the battery compartment cover tabs on both sides of the unit (4 total), while pushing the cover away from the unit.
