You can get a new Sunnova home solar & battery storage system for \$0 down and, if you own your system, you could also be eligible to claim up to 30% of your installed system's cost on your federal taxes.

Can I get a new solar & battery storage system for \$0 down?

You can get a new Sunnova home solar & battery storage system for \$0 down. Additionally, if you own the system, you could be eligible to claim up to 30% of its installed cost on your federal taxes. \*Does this sound appealing? Talk with a home energy expert & get a quick quote today.\*

What is California's Solar Rebate program?

Rebate amount: Up to \$1,000 per kWh. Savings: Can cover nearly 100% of the battery system cost--making storage essentially free for many qualifying families. Starting June 2, 2025, California is rolling out a new \$280 million incentive specifically for low-income residents installing paired solar and battery systems:

Why do you need a solar battery?

With a battery, you can store that excess solar power yourself. Then, you can use your own stored solar energy in the evening or when electricity rates are high, bypassing the lower NEM 3.0 export rates and maximizing the value of your solar system. SGIP makes adding this battery more affordable.

Does Sgip cover battery storage?

While SGIP covers a few types of technology, battery storage, often connected to rooftop solar panels, is a primary recipient of these incentives. Major utility companies like PG&E, SCE, SoCalGas, and SDG&E help run the program for their customers. Installing in a battery system has real, practical benefits that go beyond just getting a rebate.

Will my home solar system work during a power outage?

If your home solar system is tied to the utility (grid-tied) and you don't have a battery, your home solar system will not work during a power outage. You will not be able to produce or consume solar energy while the grid is down. In order to have power during a power outage, you will need a home solar + battery storage system.

Explore the world of solar batteries in California. Learn how they work, discover their benefits, and find out about government incentives like SGIP and the ...
