What are solar-powered spotlights?

This pair of outdoor solar-powered spotlights is a flexible and adjustable product, with a separate solar panel and light heads to suit your needs. You can place the solar panel according to the sun's direction and change the spotlights up to 90 degrees for better illumination.

What are outdoor solar spotlights?

Outdoor solar spotlights are a type of lighting that uses the power of the sun to provide illumination. These lights are an eco-friendly and cost-effective alternative to traditional electric lights, as they do not require a power source and are powered by the sun's energy. Therefore, these spotlights help limit your reliance on utilities.

How do outdoor solar spotlights work?

Our outdoor solar spotlights can be used in front of or behind your home. They automatically turn on at dusk and the batteries store enough energy to illuminate your chosen feature for the duration of the night. Outdoor solar spotlights are a versatile lighting solution that can be used in a variety of spaces.

What is a solar spotlight used for?

The high-output light of the solar spotlight is excellent for lighting bushes, landscape features and small trees. Our warm white solar spotlight is specifically designed to look just like the low voltage lighting you'll find around commercial buildings, golf courses, and are great for uplighting trees!

What colors do solar spotlights come in?

Solar spotlights are available in different colors and variations. They can include bright white light, blue-tinted shades, a warm white glow, yellow light, and other multicolored options. Most of the options on our list let you choose from three different color settings, such as seen with the LITOM 12 LEDs Solar Landscape Spotlights.
