

Battery tender solar charger manual

What is a solar battery tender?

Thankfully, there is a simple solution to your battery draining problems and that is a solar battery tender. A battery tender, or maintainer, is designed to maintain your vehicle's battery at the optimum charge so that your car is ready to go whenever you are.

How do I set up a solar battery tender?

Simply park your vehicle outside or near a door or window, set up your solar battery tender, and let the sun do the rest. We know that when it comes to dealing with electricity, things can get a little tricky. Thankfully, all of the units on our list are very user-friendly.

Can a 12 volt battery charger charge a dry cell battery?

6. Use BATTERY TENDER[®]; CHARGERS, both 12 Volt 750 Milliamp JUNIOR and 12 Volt 1.25 Amp PLUS models, for charging lead-acid batteries only. They are not intended to supply power to an extra low-voltage electrical system or to charge dry-cell batteries.

The solar charger controller will automatically detect if you have connected up to a 12V or 24V battery. It will then charge appropriately at 14.4V for a 12V battery and 28.8V for a 24V battery.
