

Beats solo 3 wireless battery life

How long does a beats solo3 battery last?

While charging the entire battery will take a few hours, you can get about three hours of battery life from just five minutes of charging when the battery is low. Amazon: Beats Solo3 (\$197) Why is the battery life so long? When you're talking about 40 hours of wireless listening, it's not a bad question to ask.

Should you buy beats solo3 wireless?

Apple even says "Beats Solo3 Wireless stays true to its predecessor". The Solo 3, like other headphones in the range, is instantly recognisable and that's a big reason to buy and use Beats headphones. It's unsurprising considering how difficult it is to avoid the brand when switching on the TV, especially with sportsmen and women.

How long does a solo 3 last?

To hear someone speaking clearly, you'll have no choice but to take off the headset. According to Beats, the Solo 3 should last up to 40 hours. For comparison's sake, that's 20 hours more than some of the best headphones out there like the Bose 700 or the AirPods Max.

Are beat solo3 headphones good?

The Beat Solo3 headphones offer a stylish design, comfortable fit, and battery life to last you through multiple days. The sound quality is excellent, though a bit bass-heavy, and spoken content like podcasts are clear and crisp. Luke Filipowicz has been a writer at iMore, covering Apple for nearly a decade now.

How do I Check my Beats solo3 Wireless battery life?

If you don't feel like pulling out your phone every time you want to check the battery life of your Beats Solo3 Wireless (or if you're on Android), there's another simple way to check battery life as well. Simply press and release the power button, and it will light up the LED lights corresponding to how much battery is left.
