Battle Born stands behind their batteries with a 10 year warranty and lifetime customer service.

Which battery is best for a flooded RV?

AGM batteries are now the most popular lead-acid RV batteries. While AGM batteries are slightly more expensive than the other two, flooded batteries require consistent maintenance and gel batteries have low discharge/recharge rates. If you are going with lead-acid batteries, choose AGM.

What are the different types of RV batteries?

"AGM" includes batteries labeled "lead acid", "flooded", and "gel". AGM batteries are now the most popular lead-acid RV batteries. While AGM batteries are slightly more expensive than the other two, flooded batteries require consistent maintenance and gel batteries have low discharge/recharge rates.

Should I buy a lithium RV battery?

Most older RVs were equipped with lead-acid batteries, which are still very common today. But if you need to replace (or simply want to upgrade) your existing batteries, there are several reasons to consider a lithium RV battery. Lithium batteries last longer than their lead-acid counterparts.

Should I buy a battery bank for my RV Solar System?

Your battery bank is a very important (and potentially expensive) component of your RV solar system, so you should do plenty of research on the best RV batteries before you buy.

What type of batteries are best for a campervan?

For a campervan, hybrid batteries are often a good choice. They won't last as long as a deep-cycle battery, but are usually cheaper and can be suitable for some electronic requirements. Golf cart batteries require a lot of power and may not be the best option for a campervan.
