Who installs solar batteries Wollongong?

All the best brands at very competitive prices! GES Energy are fully accredited installers of solar batteries Wollongong, offering residential battery systems and C&I energy storage solutions. Call us today!

Why do people in Wollongong need solar panels?

Solar panel systems make it possible for people in Wollongong to use clean, green energy to power their homes and businesses. The energy from the sun that your panels collect can be used right away, sent back to the grid or saved for later. If you want to do the third option, you'll need solar batteries that can keep up with your energy needs.

Why should you use a solar battery in Wollongong?

They are: A solar battery elevates your energy setup by storing excess power generated during the day for use during peak times. In Wollongong, this means greater savings and reduced reliance on the grid. With feed-in tariffs decreasing, selling excess power back to the grid no longer provides the best value.

How many solar panels does Wollongong have?

"That's the equivalent of one 475W panel for every resident, showcasing Wollongong's strong commitment to renewable energy." With nearly 19,800 properties in the postcode, there is approximately 95.7 kW of solar capacity per 100 homes--equivalent to around 201 standard 475W solar panels.
