

Best solar battery deals victoria

Does Victoria offer a home battery rebate?

Victoria's primary support for home battery installations is delivered through the Solar Homes Program run by Solar Victoria. While the state's solar battery rebate (a direct cash rebate) has ended, it has been replaced with a generous interest-free loan to reduce your upfront costs.

Can you get a solar rebate in Victoria?

Get up to a \$1,400 Solar Rebate. The Victorian Government is providing up to \$1400 rebate to eligible households for installing Solar Panels. Rebates are capped, so you need to get in quick. Use the sun's power captured during the day in the evening's with a Battery energy storage system.

Can I get a solar panel rebate and a battery loan?

Offered in conjunction with Solar Victoria's solar panel (PV) program - you can even apply for a solar panel rebate and a battery loan at the same time if installing both systems together.

How much does a solar system cost in Victoria?

Victorians should expect to pay between \$4,100 and \$8,430 for a standard solar system, depending on the size of the system. A small system (3kW and under) should usually cost no more than \$4,000, while systems that are 10kW or larger can cost in excess of \$9,000.

Does solar Victoria offer incentives?

Although the cost of installing a solar panel (PV) system may seem high, Solar Victoria provides several incentives for eligible homes. If you're considering installing a solar system on your property, it's crucial to speak to the right solar provider.

Should you buy a solar home in Victoria?

On 1 July 2019, the Victorian Government announced the 'Solar Homes Program', which aims to further encourage the uptake of solar with an upfront rebate. The government intends to help households invest in solar, while decreasing the state's carbon emissions. So, if you don't already have solar, now may be the perfect time to get on board.
