What is the best portable solar generator?

We've tested several models and the Jackery Explorer 2000 Plus is our favorite solar generator, replacing the Jackery Solar Generator 2000 Pro. It can be paired with Jackery Solar Saga 200 panels, our favorite portable solar panels. The combination's light weight means it's easier to move than competitors with similar battery sizes.

Which solar generator is best for living off the grid?

You'll be hard-pressed to find a solar generator better suited for living off the grid for an extended period than the Bluetti AC200 Max. It boasts a substantial 2,048Wh capacity, allowing you to power your whole life off it longer than most portable generators.

Which battery is best for a solar generator?

Most modern solar generator batteries are lithium-ion batteries. These are not the only battery option, but they are usually the most effective and reliable. To know how many watts you can actually pull from the battery, you then need to know the inverter rating.

What makes a good solar generator?

Solar generators need to keep the power coming in and going out. The best solar generators can simultaneously charge all your intended devices via whatever plugs are necessary. Any portable power station worth your money will have a high output capacity so you can charge many devices, even if they require a lot of juice.

Should you buy a solar generator?

Hands-on gear tests for hardcore adventurers. Whether you are outfitting your home in case of an extended power outage or looking for a steady supply of off-grid power for your overlanding setup, it's never been a better time to purchase a solar generator.

Are solar-powered generators worth it?

Solar-powered generators used to be a niche product geared towards off-the-grid living. They still do the job in that scenario, but as the market matures, with an ever-expanding range of sizes and configurations, the quiet, emissions-free generators are becoming an essential source of backup power for all kinds of homeowners.
