

Bigblue solar battery charger 10000mah

How many solar panels does a BigBlue solar charger have?

The BigBlue solar charger has five panels that fold up into the footprint of a single panel. Four are solar panels, and the fifth has a device pocket and three USB charging ports. Four eyelets on the corners attach to included mini-carabiners for securing the panel to whatever your setup is.

Is BigBlue solar charger compatible with an iPad?

BigBlue solar charger is compatible with iPad and other devices such as iPad pro, Switch, iPhone, Android cellphones, bluetooth speakers, and some mini power stations or battery packs (less than 150Wh) or similar.

Can BigBlue 36W solar charger be used outdoors?

The BigBlue 36W solar charger is suitable for use outdoors, such as during a trek, hiking, or camping. It can handle exposure to damp conditions like morning dew or light rainfall. Note: The solar panels charger cannot store electricity; you need to connect your device directly to the solar panels in outdoor sunlight.

How much does a BigBlue 28W solar charger weigh?

The BigBlue 28W solar charger weighs 1.25 pounds, attaches to a backpack or bicycle bags, and can charge up to 3 USB-rechargeable devices at once. On sunny days it provides ample power to keep multiple smartphones charged indefinitely. In cloudy weather it charges slower but still makes progress.

What makes BigBlue a good solar phone charger?

BigBlue is a good solar phone charger because it has a unique voltage regulator to guarantee a stable voltage and current and offers CE /FCC /RoHS Certified safety features for 100% safe charging. It also includes overcharging, overheating, and short circuit protection.
