

# Can you clean the vuse solo battery

How do you clean a Vuse device?

Vuse devices are user-friendly and easy to clean; a quick wipe with a clean cloth or paper towel is all you need to clear away dirt and debris, refreshing your mouthpiece for more vaping. Check your device is cold. Wipe the mouthpiece with a clean cloth or paper towel. Done!

How do you clean a Vuse ePOD?

If dust and debris make their way into the electrical parts of your vape, this can impact how it works. You can avoid this by wiping your device weekly to clear away dirt. To clean a Vuse device thoroughly, pop out the ePod and wipe the inside with a dry paper towel. Do this before inserting a new ePod to keep your vape in top condition.

How do you clean a Vuse vape?

Remove the coil from your vape device. Rinse under warm water. Submerge the coil under boiling water and let it soak for 30 minutes. Reassemble the device. If you choose Vuse, you won't need to worry about cleaning a tank or coil. Vuse vapes are closed-system devices, which means the e-liquid and heating elements are self-contained inside pods.

What happens if a Vuse vape runs out of e-liquid?

Vuse vapes are closed-system devices, which means the e-liquid and heating elements are self-contained inside pods. When one runs out of e-liquid, replace it and vape with a brand-new pod. If dust and debris make their way into the electrical parts of your vape, this can impact how it works.

How often should you clean your vape device?

Clean your vape once a week or whenever you change your e-liquid. This is a perfect opportunity to check over your device and perform any small maintenance tasks. Our vape devices go through a lot, transferring between pockets and bags, environmental conditions, and in and out of your mouth.

Should you clean your vaping device?

There are a few things to watch out for - some cleaning mistakes may damage your vaping device or create safety risks: Always keep your vaping device away from water, including the battery and any parts with electrical connections. Don't try to clean your device if it feels warm.
