

Captain green solar batteries

Is Captain Green a good company to install solar panels?

They communicated well throughout the installation and left the site spotless. Definitely recommend Captain Green for installation of Solar Panels and Batteries I had my initial panels installed by Captain Green 3 years ago and they have been great. John contacted me with a battery offer and I jumped at it.

How effective are Captain Green solar panels & batteries?

Harry from Captain Green set up an excellent installation and the new panels are three times more effective compared to the old ones. The Captain Green Solar salesman, Harry, made the process easy for our PV solar panels & batteries installation on our farm homestead roof 500km west of Sydney.

How much does Captain Green Solar cost?

You can see reviews from some of their customers below. If you've been a customer, we encourage you to leave a rating and review of Captain Green Solar. Reviewers report paying: \$3,499 - \$4,000 for depending on hardware choice and installation difficulty (how is this calculated?)

Get my free solar buying guide now! Captain Green Solar is Proud of Being One of the Top Solar Companies in Australia. Over the past 13 Years we have installed the below number of Solar Panels Established Since 2010 and over half a decade later, we have survived the test of time and have more experience than any solar power installer in Australia.

Can Captain Green Solar install a 6.6kw Solar System?

Captain Green Solar and their electrical contractor PSE Electrical were able to get my solar installed quickly and professionally. Was able to install a 6.6KW system without a glitch. System after rebate would pay itself off in under 2 years. Solar generated on a clear day in Autumn has peaked over 30kw.

Is Captain Green a good company?

Captain Green are reliable, trustworthy and easy to deal with. They had an online tracking system so you could keep track of your solar install at every stage. My experience with them was great all my questions were answered in minutes. Thank you once again. Zacks had installed system and very smoothly So I'm happy with that.
