

Casio protrek solar battery replacement

Are Casio Protrek watches solar powered?

Casio Protrek watches are generally solar powered. However, they all come equipped with one single battery to power the watch should the solar power fail. In general, these batteries do not have to be replaced. Casio guarantees them to last as long as the watch itself does. There are times, however, when the battery does fail.

How do I replace the battery on my Casio solar watch?

Slide the new battery (available at any electronics store or online) into the compartment and place the metal bar over it. Replace the battery cover and reassemble your Casio solar watch in the reverse order you took it apart.

How much does a Casio ProTrek watch cost?

Prices for Casio Pro Trek watches range from \$150 to over \$550 for models with more features. Casio Pro Treks are known for providing the best features for outdoor use and are worth every penny.

Do Casio Pro Treks have a solar-powered battery?

Yes, Casio Pro Treks have a solar-powered battery called Tough Solar. This feature uses UV rays to extend the watch battery's life. Outdoor watches have a lot of power-draining functions and a solar-powered battery keeps those systems running. Casio Pro Treks have this capability.

Do Casio pro Trek watches drain the battery?

Casio Pro Trek watches have several features like the altimeter, barometer, compass, lighting, daily alarms, and various measurement functions that can drain the battery. However, Casio Pro Trek tough solar watches will power through and keep your watch fully functioning at all times.

Are all Protrek batteries different?

All PROTREK batteries are different, depending on the watch series. You may find the size of your battery by using our table and finding the battery type you require. For example, if you know your PROTREK is compatible with CR2016 batteries, you can find out its size at any store.
