

Casio tough solar battery change

How does Casio Tough Solar work?

Powering this highly functional watch is a Casio Tough Solar movement that uses light, be it artificial or natural, to charge up the watch; it can even stay running after staying in the dark for months. The Radio controlled nature of this watch makes it extremely accurate as it can sync up with an atomic clock.

How do I replace the battery on my Casio solar watch?

Slide the new battery (available at any electronics store or online) into the compartment and place the metal bar over it. Replace the battery cover and reassemble your Casio solar watch in the reverse order you took it apart.

What powers the Casio Tough Solar watches?

The Casio Tough Solar watches are powered by the sun. The CASIO Tough Solar System is so advanced that even the weakest light sources are sufficient to operate the watches.

What happens if Casio Tough Solar battery goes bust?

Also, we mentioned above that whenever your Casio Tough Solar's battery will go bust, the configuration will be reset. So you need to align the time again so you can get the right one as per your city. So were you able to learn a lot?

What should I do if my Casio battery fails?

- o Leave battery replacement up to your original retailer or authorized CASIO service center.
- o Have the batteries replaced only with the type specified in the User's Guide. Use of a different battery type can cause malfunction.
- o When replacing the batteries, also request a check for proper water resistance.

How do I remove the back cover of my Casio solar watch?

Turn your Casio solar watch face-down to reveal the back plastic cover that is secured in place with six small screws. Some Casio models have two screws on either side of the watch face as well. Remove all the screws securing the back cover with your Phillips head screwdriver. Remove the screws on the side of the watch if applicable.
