

Changing the watch battery on casio tough solar watch

How do I replace the battery on my Casio solar watch?

Slide the new battery (available at any electronics store or online) into the compartment and place the metal bar over it. Replace the battery cover and reassemble your Casio solar watch in the reverse order you took it apart.

What is a Casio Tough Solar watch?

As is obvious from the title of the article, this model also features a Casio Tough Solar movement that means it uses light to run the watch and can store excess energy to stay running for many months in the dark. It's an accurate and reliable technology that's found in many Casio watches.

What should I do if my Casio battery fails?

o Leave battery replacement up to your original retailer or authorized CASIO service center. o Have the batteries replaced only with the type specified in the User's Guide. Use of a different battery type can cause malfunction. o When replacing the batteries, also request a check for proper water resistance.

How do I remove the back cover of my Casio solar watch?

Turn your Casio solar watch face-down to reveal the back plastic cover that is secured in place with six small screws. Some Casio models have two screws on either side of the watch face as well. Remove all the screws securing the back cover with your Phillips head screwdriver. Remove the screws on the side of the watch if applicable.

What happens if a watch has a cracked battery?

Note that if cracking or any other abnormality indicating possible damage is noticed in a watch submitted for battery replacement, your watch will be returned with an explanation of the abnormality, without the requested servicing being performed. Was this information helpful?
