

Combinable power storage tank

What types of fluids can be stored in a Poly Tank?

Fluidall's poly tanks and stackable tank gravity feed fluid storage solutions manage bulk oil, lubricants, DEF and automotive type fluids.

What accessories do I need for a tote-a-lube tank system?

We can recommend optional system accessories such as secondary containment vessels that are compliant with the EPA's SPCC regulations, remote fill kits for the top tanks, and premium dispense equipment packages. The Tote-A-Lube Tank Systems can even be bolted to the floor for added security.

Are stacked oil tanks a good investment?

Stackable Tanks Save Space! Fluidall's Safe and efficient bulk oil tanks and systems may be the most simple and impactful investment for your automotive style fluid storage and handling needs. Check out Each Fluidall Stackable Tank Brand: Tote-A-Lube, Cubetainer, Wall-Stacker and Slimtainer Tanks and Systems.

What is a wall Stacker Poly Tank?

Space saving Wall-Stacker poly tanks maximize valuable space with the smallest possible gravity feed system footprint at 38" W x 30" D. Our Wall-Stacker are simple solutions that allow bulk oil and fluid storage in constrained locations such as bay ends and pits.
