

Community batteries for household solar program

What is the community batteries for household solar program?

The Community Batteries for Household Solar program will install 400 batteries to provide shared storage for households across Australia. The batteries will store excess solar energy for families and households to use during peak times. The community batteries will: lower emissions. The \$200 million program will deliver grants through:

What is a community battery?

The Community Batteries for Household Solar program is intended to support the lowering of electricity costs and emissions, support the storage of excess solar energy, reduce pressure on the network and enable further household solar installations. How can I find out if a community battery may be installed in my community?

What is the community batteries funding initiative?

The Community Batteries Funding Initiative under the Advancing Renewables Program (ARP) seeks to support the deployment of community batteries across Australia to lower energy bills, cut emissions, reduce pressure on the electricity grid and enable further distributed solar installations.

How many community batteries for household solar projects are there in Australia?

Stepping into Australia's new energy future. In 2022, the Federal Government announced \$200 million in funding for the Community Batteries for Household Solar budget measure to deploy 400 community battery projects across Australia. What is the Community Batteries for Household Solar program?

Why do we need community batteries?

Community batteries can help to store excess solar power for use at other times when solar power is not being generated. Community batteries can help support lower electricity bills, reduce emissions, and reduce pressure on the electricity grid by helping to balance fluctuations in energy supply and demand throughout the day.

What is the community batteries for household solar program - delivery of election commitments Stream 2?

It complements the Community Batteries for Household Solar Program - Delivery of Election Commitments Stream 2. This stream (Stream 1) aims to install, connect and operate community batteries in certain locations listed in the grant opportunity guidelines. Only one community battery can be installed in each location under this grant opportunity.
