What are people saying about solar installation services in Los Angeles?

What are people saying about solar installation services in Los Angeles, CA? "Tim and the team at AWS Solar did a very thorough job explaining what and why we needed to have a specific system that would satisfy our household's needs. High quality install and recommendations of areas that needed repair in advance of install.

What is solar power & battery backup?

Capture the rays of the sun with solar panels and store that energy with battery backup. Solar power and battery backup protect you from surge pricing during peak-demand times or as a backup when the power goes out. Prices are rising every day, and electricity continues to be in high demand.

Should you buy a solar generator for your home?

Consider a solar-powered generator. Solar generators for houses don't generate power the same way gas-powered home standby generators, like Generac generators, do. Instead, they collect solar energy via solar panels and store it in lithium-ion and lead-acid batteries for later use.

How do I get a solar installation?

Fill out the online form, and a trusted independent installer will call you to schedule a consultation. The solar specialist will review suggestions for your home based on square footage, power needs and appliance wattage to ensure a whole-home solution.

Why do I need a battery backup for my solar panels?

Energy storage, or battery backup, offers you peace of mind knowing that your home will have power when there's an outage. It's also a great way to offset energy costs during periods of surge pricing. How do I maintain my solar panels?
