

Why is psychological empowerment important in talent management?

Psychological empowerment plays a crucial role in enhancing the effectiveness of talent management by regulating the relationship between employee retention and talent management tactics. Employee empowerment is expected to improve retention and give businesses a more resilient and long-lasting workforce [99,100].

Do psychological empowerment and talent management improve employee retention?

This study's findings highlight how important psychological empowerment (PE) and talent management (TM) are to improving employee retention (ER) in the human resource management (HRM) domain. In particular, the results show that TM and ER are highly correlated, with PE mediating this association.

Does a good talent management system increase employee engagement?

A study by Jiang et al. found that workers who thought their companies had a good talent management system expressed greater engagement and job satisfaction. Similarly, a study by Park and Kim found that talent management tactics and employee retention were highly correlated.

What is effective talent management?

Effective talent management (TM) has consequently emerged as a strategic imperative, encompassing the systematic identification, development, and retention of high-potential employees who can create organizational value [3, 4].

How do strategic approaches to talent management improve employee engagement?

Improved Employee Engagement: Strategic approaches to talent management create higher engagement scores because people understand their role in the bigger picture and see clear growth paths.

What is the relationship between talent management and employee retention?

According to Hypothesis 4 (H4), the relationship between talent management and employee retention is mediated by psychological empowerment. In addition to having an indirect or direct impact on retention, talent management programs also promote empowerment, which increases workers' motivation to stick with the company [14,47].
