

Continental solar batteries

What is continental battery systems?

Continental Battery Systems is The Single Source Solution for all your battery needs. Automotive batteries are designed to power the starter motor, lights and accessories in your vehicle. Our automotive batteries are made from high-quality materials and come in a complete range of sizes and specifications. Find the best one for your car today.

Where can I buy a Continental battery?

Continental batteries are available at over 30,000 dealers across a network of over 100 distribution locations in North America.

Why should you choose continental battery systems?

Disruptions in the supply chain can wreak havoc on everyday lives and business operations. Through it all, Continental Battery Systems remains committed to helping customers ensure they have the power they need to run equipment and vehicles.

Who makes continental batteries?

Another report says that there are 16 companies under the control of Continental, which is why their reputation for lower quality batteries may have some truth to it. Then some say that Johnson Controls and Triton make the batteries that Continental sells and distributes. But this is not the big news about Continental.
