

# Cost for 7 kwh solar panel system pueblo co 2019

How much do solar panels cost in Pueblo?

The average cost of solar panels in Pueblo is about \$19,900 for a 5-kW system and \$39,800 for a 10-kW system before the ITC, but the real cost will depend on things such as the kind of solar panels you want, what size system you need and how much energy you consume. Should I lease or buy solar panels in Pueblo?

Can I get a solar tax credit in Pueblo CO?

As long as your federal tax bill is high enough, you can take advantage of the federal tax credit in Pueblo, CO. This incentive allows you to apply 30% of your solar installation and equipment costs toward your federal tax bill. If the amount exceeds your tax bill, you can roll over the remaining credit to the following year.

Is Pueblo County a good place to go solar?

In the spring of 2018, Pueblo County was awarded the SolSmart Bronze award, which recognized our community for taking bold steps to make it faster, easier, and cheaper to go solar. Pueblo County is "open for solar business", and wants business, solar companies, and residents to know that Pueblo County is a great place to go solar.

How much do solar panels cost?

For each additional kilowatt you need, your cost can go up by about \$3,980. The model of solar panels and equipment you choose is another factor that will greatly impact costs. Solar panels that are more efficient, like monocrystalline panels, tend to cost more. Plus, solar equipment consists of more than just the solar panels themselves.
