

D light solar battery

What is a DLIGHT D100 Solar System?

The d.light D100 is a versatile solar home system for off-grid households, providing bright lighting and mobile charging. It features a 9W solar panel and a 32Wh LiFePO4 battery with 2000+ charge cycles, lasting 5-7 years.

Why did Yakubu use a DLIGHT S610 solar lantern?

The d.light S610 solar lantern had been a constant companion, providing reliable light for Yakubu's late-night studies. Yakubu's success story inspired the entire village, demonstrating that with determination and the right tools, like the d.light S610 solar lantern, even the darkest of circumstances can be overcome.

How many lumens does a d100 LED light have?

The system includes two LED bulbs (1.2W each) and one tube light (2W), delivering up to 460 lumens up to 12 hours, and a USB port for phone charging. With PayGo technology, long-lasting LEDs, and a 2-year warranty, the D100 is an eco-friendly, durable, and affordable solution for off-grid lighting and connectivity.
