

Deka solar battery agm 8g4d equalizer

What is a Deka 8g4d battery?

The Deka 8G4D (8G4DM) gelled construction also eliminates vibration damage to plates. These are manufactured by East Penn Manufacturing who also manufactures batteries under the name MK Battery. The Deka 8G4D (8G4DM) is a direct replacement for any group 4D lead-acid, GEL, or AGM batteries. Warranty is for 1 year free replacement.

What is a Deka AGM battery?

Deka's AGM (Absorbed Glass Mat) Series uses a special absorbed electrolyte technology that is superior to conventional lead-acid batteries. This completely sealed valve-regulated battery line eliminates gas emissions and acid leakage for longer and safer battery operation.

Why should you choose Deka 8g4d?

Deka 8G4D features increased durability and deep cycle ability for heavy demand applications. Stand loss of less than 2% per month means little deterioration during transport and storage. Transports easily and safely by air. Valve regulated design with sealed construction eliminates periodic watering, corrosive acid fumes and spills.

What is AGM sealed valve-regulated technology?

Unlike conventional "flooded" lead-acid batteries, AGM sealed valve-regulated technology eliminates the need to add water because the oxygen and hydrogen gases react to maintain the necessary amounts of moisture. Highly porous microfiber separators wrapped around the positive plates completely

Because there is no liquid electrolyte to leak or spill out of the battery, the Deka 8G4D (8G4DM) can easily be installed in hard-to-reach locations. There is no need to check fluid levels. The ...

After torquing, read the voltage of the battery string to ensure the individual batteries are connected correctly. The total voltage should be approximately equal to the number of ...

Exceptionally reliable, this long-lasting Group 4D 12 volt battery is very resistant to hot and cold temperatures. The completely maintenance free, sealed construction eliminates periodic watering, corrosive acid fumes and spills.

Deka's AGM (Absorbed Glass Mat) Series uses a special absorbed electrolyte technology that is superior to conventional lead-acid batteries. This completely sealed valve-regulated battery ...

Deka solar battery agm 8g4d equalizer

Advanced American Technology and the use of the most modern computer-aided design and manufacturing techniques combine to make MK / Deka Solar batteries the standard by which all other solar batteries are measured.

Exceptionally reliable, this long-lasting Group 4D 12 volt battery is very resistant to hot and cold temperatures. The completely maintenance free, sealed construction eliminates periodic ...

Advanced American Technology and the use of the most modern computer-aided design and manufacturing techniques combine to make MK / Deka Solar batteries the standard by which ...

Battery performance is based on the output at the battery terminals. Therefore, the shortest electrical connections between the battery system and the operating equipment results in ...
