

# Edison eco-45 battery solar powered pellet stove

Is Drolet eco 45 a good pellet stove?

The Drolet Eco 45 pellet stove in metallic black finish. The Drolet Eco 45 pellet stove is a popular choice for a moderately powerful freestanding unit. This particular model has a long track record. Drolet has been making the Eco-45 for almost a decade, so it's easy to find feedback about how the stove performs.

Why should I buy a eco-45 pellet stove?

Thank you for purchasing the ECO-45 pellet stove. You are now prepared to burn wood in the most efficient, convenient way possible. To achieve the safest, most efficient and most enjoyable performance from your stove, you must do three things: 1) Install it properly; 2) Operate it correctly; and 3) Maintain it regularly.

What is a Drolet eco 45?

The Drolet Eco 45 was the first in this line of Drolet pellet stoves, introduced in September 2006. Slightly larger than the Eco 35, the Drolet Eco 45 can produce 45,000 btu. per hour, burn for 46 hours on the low heat setting, (107 hours with the optional hopper extension), and heat up to 2000 square feet.

How many BTU does a Drolet eco 45 burn?

Slightly larger than the Eco 35, the Drolet Eco 45 can produce 45,000 btu. per hour, burn for 46 hours on the low heat setting, (107 hours with the optional hopper extension), and heat up to 2000 square feet. A nice touch is the inclusion of filters for the convection blower to stop dust being blown around the house. (see comments below).

Do eco-45 pellet stoves have a blower?

As opposed to most other pellet stoves, which use only an exhaust blower, your ECO-45 uses a motor on which are mounted two housings with impeller blades. One housing serves for combustion, and the other for exhaust. This is why we refer to the combustion/exhaust blower throughout this manual. **OPERATING. DO NOT OVERFILL HOPPER.**

How many BTUs does a Drolet eco 45 produce?

The Drolet Eco 45 freestanding automatic pellet stove produces 45,000 BTUs, is EPA certified for efficiency, and has a long track record of reliability.

If you're looking for a well-built pellet stove that is big enough to heat a large area but doesn't take up a lot of room, the Drolet Eco-45 is a great choice.
