

Get the latest updates on battery tech, grid-scale storage & green energy - with trusted news, trends & expert commentary

With a total project investment of EUR85 million for Antares, Return continues to expand its portfolio, reinforcing its role in building a more flexible, reliable, and sustainable ...

SACRAMENTO - The California Energy Commission (CEC) on Wednesday approved the Darden Clean Energy Project (DCEP), the first to be permitted under the state's ...

U.S. battery storage capacity has been growing since 2021 and could increase by 89% by the end of 2024 if developers bring all of the energy ...

Plus Power's 250-MW Sierra Estrella battery storage project in Avondale, Arizona. The U.S. energy storage industry will invest \$100 billion ...

The U.S. energy storage industry is committed to investing \$100 billion in American grid batteries, including both capital for building new battery ...

Meta confirmed that the green energy would be used at a data centre in Mesa, with the remainder being made available to SRP customers in ...

Climate-friendly electricity sees big battery projects soar again for 2024 A worker does checks on battery storage pods at Orsted's Eleven Mile Solar Center lithium-ion ...

Portland General Electric, the utility that serves Portland, Oregon, announced Friday it is putting in the second-largest battery storage ...

It ranks among the world's biggest lithium-ion battery projects so far, and has been switched on by electric power generation and distribution ...

Massachusetts-headquartered renewables and energy storage developer Swift Current Energy said this morning that it had closed project financing for Prospect Power ...

10 · Chinese renewable energy group Sungrow Power Supply plans to build an energy storage battery factory in Egypt, the Egyptian presidency's spokesperson announced in a ...

With a total project investment of EUR85 million for Antares, Return continues to expand its portfolio,

reinforcing its role in building a more flexible, ...

1 · In terms of solar-paired energy storage projects, the Philippines' first went online in 2022, a pilot by AC Energy (ACEN) in Alaminos, Laguna province, combining 40MW of BESS with ...

In 2024, Apex announced that First Citizens Bank Energy Finance helped to arrange financing of more than \$150 million for the two ...

1 · Wärtilä BESS units at a customer project. Image: Wärtilä A proprietary explosion control system performed effectively in three recent safety tests ...

5 · China aims to install more than 100 GW of new energy storage - primarily battery storage, excluding pumped hydro - by 2027, according to a new action plan presented by ...

Portland General Electric, the utility that serves Portland, Oregon, announced Friday it is putting in the second-largest battery storage installation in the United States, 400 ...

5 · The tech giant will provide funding for a portion of long-duration energy storage projects developed for the Salt River Project's electric grid, the ...

The project will employ TerraFlow's large-tank flow battery solution, designed for "safe, stable, and long-life operation." Image: TerraFlow As the US looks to establish reliable ...

Ekus Energy has partnered with utility Tokyo Gas on a grid-scale energy storage project in Japan, with construction expected to start soon.

NextEra is seeking approval of a renewable energy project with battery storage via the California Energy Commission opt-in process.

2 · Image: Axpo. Utility and power firms Axpo and energieUri will together deploy two BESS projects in Switzerland with technology provided by system ...

6 · Top energy storage, battery news, technical articles, tenders & upcoming events for the energy storage and battery industry - The Battery ...

2 · Latest news on energy storage projects, BESS, capacity expansion, and regulatory updates across Europe, US & Canada, Latin America, and Asia Pacific. Discover how energy ...

15 · The project has been fast-tracked via Victoria's Development Facilitation Program. Image: Trina Solar (LinkedIn). Chinese PV module manufacturer Trina Solar has received the ...

2 · The new energy storage technology roadmap will continue to prioritize lithium-ion battery storage, while further diversifying various technical approaches and application ...

The UK is undoubtedly one of the hottest global markets for battery storage today and a considerable pipeline of projects exists. Analyst ...

Battery storage at this 10MW/20MWh project in Bulgaria was installed in just 10 days, made possible by Sigenergy's highly modular C& I BESS solution. Image: Sigenergy. ...

12 · A second major renewable energy development in Victoria's North East has been granted state government approval despite fierce local community opposition.

India will test the installation of battery storage systems at some coal power plants, as the country grapples with integrating massive solar ...
