

# Energy storage downstream stocks

What are energy storage stocks?

Energy storage stocks are companies that produce or develop energy storage technologies, such as batteries, capacitors, and flywheels. These technologies can store energy from renewable sources like solar and wind power, or from traditional sources like coal and natural gas.

Are energy storage stocks a good investment?

Currently, energy storage stocks are a relatively safe investment to make for the future, and if trends hold, they have solid potential for growth. However, if this doesn't appear to be a good fit for your investment portfolio, then it's best to look at other options.

Is Enphase Energy a good stock to buy?

When you combine it with its growth prospects, it appears to be a good company to buy amid the present stock market downturn. Enphase Energy is a leading provider of solar energy storage systems for homes and businesses and is also considered one of the top renewable energy stocks.

Is Bloom Energy a good energy storage stock?

Bloom Energy is one of the smaller picks on this list, but it may be the most dynamic energy storage stock out there. It specializes in advanced fuel cell energy platforms, which use a proprietary solid oxide technology to convert natural gas, biogas, or hydrogen into electricity with low or even zero carbon emissions.

Should you buy energy stocks?

Energy stocks tend to perform independently of other types of stocks, so investors buy them to diversify their portfolios. Many energy stocks offer attractive yields and therefore appeal to investors who like high-dividend stocks. They provide investors with a way to play rising oil prices.

Are energy stocks undervalued?

The energy stocks that Morningstar covers look 8.5% undervalued on average. These were the most undervalued energy stocks that Morningstar's analysts cover as of July 22, 2025. To come up with our list of the best energy stocks to buy now, we screened for: Energy stocks that are undervalued, as measured by our price/fair value metric.
