

# Energy storage power logistics company ranking

What are the top 5 energy storage manufacturers?

The top five manufacturers were CATL, EVE Energy, Hithium, BYD, and CALB. CR5 has surpassed 75%, signaling a highly concentrated market with limited growth opportunities for new entrants. According to InfoLink, 300Ah+ cells now account for nearly 50% of the global utility-scale energy storage market in a single quarter.

Who are the top energy storage cell makers?

Notably, CATL, BYD, and the newcomer Hithium are top energy storage cell makers, increasingly expanding into system integration. Top cell makers, with their technology and supply chain advantages, are strengthening their competitiveness in the full industry chain through vertical integration.

Who are the major energy storage partners?

Major energy storage partners include domestic players like China Energy Group, SPIC, China Huaneng, China Huadian, and CNPC, as well as international firms such as NextEra, Synergy, W&#228;rtsil&#228;, Excelsior, Jupiter Power, and FlexGen. BYD secured second place with 192 GWh in shipments, up 22% YoY, holding a 15% market share.

Is Tesla Energy a good energy storage company?

Tesla Energy's energy storage business has never been better. Despite only launching its energy storage arm in 2015, as of 2023 the company had an output of 14.7 GWh in battery energy storage systems. Its portfolio includes storage products like the Powerwall and the Megapack.

Is energy storage the second growth engine?

Its strategy of "positioning energy storage as the second growth engine" has yielded successful results. Since 1Q24, EVE Energy has consistently ranked second in the industry, with a significant competitive advantage.
