

# Energy storage startup company electric power research institute

How do I contact the electric power research institute (EPRI)?

To contact the center, call 800-313-3774 and press 4 or send an email to [askepri@epri.com](mailto:askepri@epri.com). The Electric Power Research Institute (EPRI) conducts research, development, and demonstration projects for the benefit of the public in the United States and internationally.

What is the electric power research institute (EPRI)?

The Electric Power Research Institute --known as EPRI--was born in the wake of the 1965 Great Northeastern Blackout. Shortly after 5pm, as millions of workers were heading home, an overloaded transmission line near Ontario, Canada "tripped" and went dark.

When did Dr Starr start EPRI?

In 1972, Dr. Starr presented his vision for what would become EPRI to Congress in a formal hearing. Shortly thereafter, he got to work building the nonprofit with a mandate to lead objective, scientific energy research, development, and deployment.

How much power does EPRI need?

A new report released today from EPRI and Epoch AI forecasts that training a leading model could require more than 4 gigawatts (GW) of power by 2030--enough to power millions of U.S. homes. PALO ALTO, Calif. (Aug. 8, 2025)-- Fulfilling EPRI's public-benefit mission amid a rapidly evolving energy landscape demands visionary leadership.

What is EPRI's energy research portfolio?

EPRI's diverse energy research portfolio offers collaborative projects, customized research opportunities, thought leadership, and innovative solutions.

Why should the electric power sector embrace innovation?

Now more than ever, the electric power sector must act with speed, agility, and ingenuity to ensure energy remains accessible and resilient. As generation becomes more distributed, demand more dynamic, and technology more advanced, the electric power sector must embrace innovation and seek versatile, responsive approaches.

The Electric Power Research Institute conducts research on issues related to the electric power industry in USA. EPRI is a nonprofit organization funded by the electric utility industry.

Biography Xiangjun Li (Senior Member, IEEE) received the Ph.D. degree in electrical and electronic engineering from the Kitami Institute of Technology, Kitami, Japan, in 2006. Since ...
