

Fenix 6 solar battery life

Is the Garmin Fenix 6 a solar-powered watch?

The Garmin Fenix 6 is a solar-powered watch. Garmin have recently launched a number of solar powered watches where the battery life can be extended thanks to solar energy. In this review, I will go through the most important features of the Garmin Fenix 6 Pro Solar.

Does the Fenix 6 pro solar have a good battery life?

I doubt you would find battery life to be a problem with this watch. The Fenix 6 Pro Solar can last up to 16 days per charge, which is already solid. Add the solar-charging feature through the screen and you can slow down battery loss even further. The more time you spend outside, the more you expose the watch to solar power.

Does the Fenix 6 Sapphire run out of power?

The Fenix 6 Sapphire, without the solar feature, ran out of power on Day 10. In contrast, the Fenix 6 Pro Solar provided an additional battery life of about 12 hours. This corresponds to a 5% battery life extension. During the two-week period, I went for 8 runs and spent approximately 2-3 hours outside each day.

How long does a Garmin Fenix 6 last?

According to Garmin, you get about 21 days of watch mode and 60 hours of activity tracking without any solar or battery saving tweaks. One of the great things on the Fenix 6 is that it gives you a battery time estimate (5 days here). You can also just show the percentage.

Is the Fenix 6 pro solar a good watch?

The Fenix 6 Pro Solar is a big watch by any measure. The 47mm body makes this one harder to manage for smaller wrists, though you may feel differently if you get the chance to try one on. It has a 1.3-inch display with a special coating capable of pulling in solar power to extend battery life even further than it already manages.

Is the Fenix 6 pro solar a good fitness tracker?

The Fenix 6 Pro Solar is the latest top end fitness tracker from Garmin. It's a modest upgrade on the Fenix 6 Pro that wowed us last year, and that's no bad thing. Though the refinements made are modest at a glance, they add up to make the already great Fenix 6 line even better.
