

# Garmin fenix 6 pro solar battery life

How long does a Fenix 6 pro solar battery last?

It increases the Instinct Solar's standard GPS tracking (with heart rate) battery life from 30 hours to 38. With the model currently being reviewed, the Fenix 6 Pro Solar, active GPS tracking battery life rises from 36 hours to 40 hours. And battery saver is topped up from 48 days to 80 days.

Is the Garmin Fenix 6 a solar-powered watch?

The Garmin Fenix 6 is a solar-powered watch. Garmin have recently launched a number of solar powered watches where the battery life can be extended thanks to solar energy. In this review, I will go through the most important features of the Garmin Fenix 6 Pro Solar.

How long does a Garmin Fenix 6 Sapphire last?

During the testing period, I wore both the Garmin Fenix 6 Sapphire and the Garmin Fenix 6 Pro Solar for two weeks and exposed them to exactly the same conditions. The Garmin Fenix 6 Sapphire (without SOLAR) ran out of power on Day 10, while the Garmin Fenix 6 Pro Solar lasted about 12 hours longer. This corresponds to a battery life extension of about 5%.

Is Fenix 6 pro solar better than power glass?

With the model currently being reviewed, the Fenix 6 Pro Solar, active GPS tracking battery life rises from 36 hours to 40 hours. And battery saver is topped up from 48 days to 80 days. The lower-price Instinct Solar appears to have a more effective take on Power Glass than the Fenix 6 Pro Solar's. You can see why in the image below.

Does the Fenix 6 Sapphire run out of power?

The Fenix 6 Sapphire, without the solar feature, ran out of power on Day 10. In contrast, the Fenix 6 Pro Solar provided an additional battery life of about 12 hours. This corresponds to a 5% battery life extension. During the two-week period, I went for 8 runs and spent approximately 2-3 hours outside each day.

Is the Fenix 6 pro solar a good watch?

The Fenix 6 Pro Solar is a big watch by any measure. The 47mm body makes this one harder to manage for smaller wrists, though you may feel differently if you get the chance to try one on. It has a 1.3-inch display with a special coating capable of pulling in solar power to extend battery life even further than it already manages.

Now that I have charged up my new Fenix 6x Pro Solar for over the last couple weeks, got it the day of release, the battery life is getting better.

If we look at the numbers, Garmin say that Garmin Fenix 6 Pro Solar in GPS-mode preserves power up to 36 hours WITHOUT SOLAR, and up to 40 hours WITH SOLAR. ...

# Garmin fenix 6 pro solar battery life

The Garmin Fenix 6 Pro Solar is the best fitness tracker on the market at the moment, offering best in class battery life and a wealth of new activity tracking features that'll ...

Although it has a solar panel, this will only slow battery drain slightly, even in full sun. However, battery life is superb; I routinely got over 35 hours with GPS and heart rate.

The Fenix 6 Pro Solar can last up to 16 days per charge, which is already solid. Add the solar-charging feature through the screen and you can slow down battery loss even further.
