

Halfords solar power battery maintainer

What is Halfords solar battery maintainer 6W?

Booking system unavailable, please try again later. The Halfords Solar Battery Maintainer 6W is a clean and green energy solution to keep your battery level topped up. It is ideal for maintaining 12V batteries in cars, motorbikes, boats, trucks, caravans and other applications up to 250Ah.

How much does Halfords solar battery maintainer cost?

Two additional power levels of Halfords Solar Battery Maintainer are available: the 1.5W version is priced at £15 while the 6W panel is £39. Owners of old cars will at some point have sat in their pride and joy, and turned the key, only to hear the dreaded clunk of a reluctant starter motor. The culprit is usually the battery.

Does Halfords 2.4W solar battery maintainer work?

We tested the new Halfords 2.4W Solar Battery Maintainer on a 2-litre petrol car that will, fairly reliably, drain its battery to the point that it won't start within about 10 days. For the owner -- me -- it is a frequent cause of frustration. Using the supplied suckers, the panel sticks neatly inside the windscreen but it could also lie on the dash.

Find many great new & used options and get the best deals for Halfords Solar Power Trickle charge Battery Maintainer 196471 2.4 watt at the best online prices at eBay!
