

# How much is a home solar battery

How much does solar battery storage cost?

If you're looking to buy battery storage for your solar panels, you can probably expect to pay between \$7,000 and \$18,000. Just know that the overall price range for a solar battery is even wider, with prices anywhere from a few hundred dollars to \$30,000+, depending on what you buy, who you buy it from and how you plan to use it.

How much does it cost to install a solar battery?

Labor to install a solar battery costs \$2,000 to \$3,000 on average. Labor costs are lowest when installing a battery at the same time as a solar panel system. Retrofitting an existing system to add a new battery can increase labor costs by 30% to 50%. Solar battery installation may require additional electrical work:

How much does a solar backup battery cost?

Many of the best home solar backup batteries will cost somewhere between \$12,000 and \$20,000, but the total cost will vary depending on the battery you choose and the difficulty of the installation. The price of a Tesla Powerwall is usually much lower than other battery brands, but it will depend on the installer you choose.

How much does a Tesla Solar battery cost?

Tesla's solar batteries use lithium-ion batteries, which cost around \$9,000 to \$30,000 with installation. Lithium-ion batteries are long-lasting, durable, and require little maintenance.

Are solar batteries worth it?

Solar batteries typically cost \$10,877 after the federal tax credit--which expires for batteries installed after December 31, 2025--for the 13.5 kilowatt-hours (kWh) of storage a typical home needs to keep essential devices running during outages (also the size of a Tesla Powerwall 3). Whether they're worth it depends entirely on your situation.

How much does it cost to install a solar battery in 2025?

The average cost to install a solar battery in 2025 is between \$9,000 and \$19,000, with the average homeowner paying around \$13,000 on average.
