

How to adjust the outdoor power storage time of new equipment

Should you store outdoor power equipment in spring?

MILWAUKEE, WI (November 9, 2017) - During the seasonal transition from fall to winter, yards become dormant for several months and yard work is reduced significantly. Briggs & Stratton Corporation reminds homeowners to prepare and store outdoor power equipment so it starts effortlessly in spring and helps ensure longevity of their equipment.

How do you store a lawn mower in winter?

Briggs & Stratton Corporation reminds homeowners to prepare and store outdoor power equipment so it starts effortlessly in spring and helps ensure longevity of their equipment. There are five essential winter storage steps to extend the life of a lawn mower: 1. Add fuel stabilizer

Should you bring battery-powered yard equipment indoors?

Instead, consider bringing them indoors or to a cool, dry area like a heated garage or well-ventilated shed. Removing the batteries from the tool and charger is also best to avoid damage or overcharging. Battery-powered yard equipment has become powerful enough to be many people's only yard equipment.

Why should you buy battery-powered yard equipment?

Battery-powered yard equipment allows for the freedom of gas versions but without the fumes or noise. Outdoor yard equipment can get dirty after cutting trees, branches, grass, weeds and more. The heavy-duty work can also cause damage and dings on the tools.

How do you maintain a lawn mower?

Keep your lawn mower running smoothly by cleaning with a pressure washer or garden hose to remove grass, dirt and debris from the lawn mower deck and blades. 5. Store your lawn mower in a cool, dry place. Avoid moisture damage by storing your mower in a cool, dry shed or garage.

How do you store a pressure washer?

Avoid moisture damage by storing your mower in a cool, dry shed or garage. Pressure washer storage is similar to the steps we take for mower preparation. Repeat steps one and two, then flush and drain the machine to clean the detergent tank. Before storing, fill the machine with pump saver to prevent rust and freeze damage.
