

Kodiak solar battery

What is a Kodiak Solar Generator?

The Inergy Kodiak Solar Generator is a solar generator that was a great solar system for RVs and camp trailers. It had an RV plug, enabling RV users to power home appliances, the TV, and outdoor equipment. It was a valuable means of power production and emergency power when there were problems with the van.

Has the Kodiak solar generator been discontinued?

The Kodiak Solar Generator has been discontinued. Some previous reviews have mentioned the Inergy Apex Solar Generator instead, but that generator has also been discontinued.

How much does the Inergy Kodiak solar generator weigh?

With an 1100 watt lithium ion battery and a surprising weight of only 20 pounds, it's as light as you need to go where electricity doesn't exist anywhere else. The Inergy Kodiak solar generator weighed in at 20lbs which is about half that of the competition.

Is Inergy apex the new Kodiak solar generator?

The Inergy Apex has a more refined look and better specs than the original Kodiak solar generator. It appears that Inergy has looked to expand on this theme with their newest power station.

What can the Inergy Kodiak power?

The Inergy Kodiak is a powerful solar generator that can power many things. It has a capacity of 1,100Wh of power and includes various charging ports on the side. Despite its size (9 x 14 x 9 in) and weight (20 pounds), it packs a punch.
