

The "Energy Storage: The Key to Unlocking a Sustainable Future" report examines the latest advancements in energy storage technologies across industries such as ...

By Yayoi Sekine, Head of Energy Storage, BloombergNEF Battery overproduction and overcapacity will shape market dynamics of the energy storage sector in ...

European Market Outlook for Battery Storage 2025-2029 7 May 2025 The report explores trends and forecasts across residential, commercial & industrial (C& I), and utility ...

About this report The IEA's flagship World Energy Outlook, published every year, is the most authoritative global source of energy analysis and projections. It ...

The IEA's World Energy Outlook 2023 provides key insights into global energy trends, challenges, and opportunities for a sustainable and secure energy future.

IEP Process The goal is to develop the tools and build the capacity of GoP to provide a credible analytical platform for assessing and planning an optimal and holistic strategy for the country's ...

As the photovoltaic (PV) industry continues to evolve, advancements in New energy storage industry analysis report have become critical to optimizing the utilization of renewable energy ...

Energy storage industry comprises companies that operate by manufacturing, generating, developing, and supplying of storage devices such as cells, batteries and any electronic device ...

Home energy storage is growing rapidly, driven by the dual forces of distributed photovoltaics and energy storage penetration. In terms of photovoltaic installations, Europe's ...

Data source: U.S. Energy Information Administration, International Energy Statistics database; The Energy Institute's 2025 Statistical Review of World EnergyNote: The natural gas balance ...

China market: Pumped Hydro Storage share falls below 50% for the first time. Non-hydro Storage accumulative installations surpass 50GW for the first time. According to ...

Figure 2: Cumulative installed capacity of new energy storage projects commissioned in China (as of the end of June 2023) In the first half of ...

China's National Energy Administration (NEA) has released the China New Energy Storage Development Report 2025, marking the first official and comprehensive ...

KPMG China and the Electric Transportation & Energy Storage Association of the China Electricity Council ("CEC") released the New Energy Storage Technologies Empower Energy ...

Explore the forefront of energy storage technologies with a comprehensive report on the trends anticipated to shape the landscape by 2025. This trend report ...

Empower strategic decision-making in global natural resources with quality data, analysis and advice. Discover the latest insights and reports ...

This edition of the Global Energy Review is the first comprehensive depiction of the trends that took place in 2024 across the entire energy sector, covering ...

This report also presents a synthesis of current cost and performance characteristics of energy storage technologies for storage durations ranging from minutes to ...

We expect 63 gigawatts (GW) of new utility-scale electric-generating capacity to be added to the U.S. power grid in 2025 in our latest Preliminary Monthly Electric Generator ...

While energy storage is already being deployed to support grids across major power markets, new McKinsey analysis suggests investors often ...

MUNICH, Germany (Wednesday 7th May 2025): New analysis reveals another year of record installations for European* battery storage, despite slower year-on-year growth, ...

Standalone Energy Storage Systems (ESS) are rapidly emerging as a key market, with 6.1 gigawatts of tenders issued in the first quarter of 2025 alone, accounting for ...

Get the latest updates on battery tech, grid-scale storage & green energy - with trusted news, trends & expert commentary

The global energy storage market almost tripled in 2023, the largest year-on-year gain on record, and that growth is expected to continue.

Why Energy Storage Is Becoming the World's New Battery Bank Imagine your smartphone battery lasting 10 days instead of 10 hours. That's essentially what's happening at ...

The Energy Storage Market Report 2025 highlights key trends, workforce developments, investment flows,

and other factors shaping the ...

The business case for storage will be built around the capacity market and energy arbitrage, including through a new dedicated platform launched by Terna where storage owners will be ...

Global Opportunity and Regulatory Roadmap for Energy Storage in 2024 This report comes to you at the turning of the tide for energy storage: after two years of rising prices and supply ...
