

Mc industry 2 energy storage upgrade

What is IC2 energy storage upgrade?

The Energy Storage Upgrade is an upgrade for IC2 machines used to increase the amount of internal energy it can store. Each upgrade increases the machine's storage by 10,000 EU. The Energy Storage Upgrade is often used in combination with the Overclocker Upgrade, due to the fact that the Overclocker Upgrade makes the machine consume more energy.

What is energy storage upgrade?

The Energy Storage Upgrade is an upgrade for IC2 machines used to increase the amount of internal energy it can store. Each upgrade increases the machine's storage by 10,000 EU...

What is an IC2 upgrade?

An upgrade is an item that can be placed inside an IC2 machine (usually at the right-hand side of the GUI, but not always) to enhance its capabilities. Not all machines can accept all upgrades; mousing over the blue and white 'i' in the upper-left corner of any machine GUI should tell you its compatibility.

How do I upgrade to IndustrialCraft 2?

To use this component, open up the GUI of your IndustrialCraft 2 machine of choice (Macerator, Compressor, etc.) and place the upgrade in one of the four righthand slots. Community content is available under CC BY-NC-SA unless otherwise noted.
