What are the best backup batteries for camping?

Below, you'll find backup batteries, small and large, to suit any circumstance, from solar phone chargers to portable power banks with solar charging for keeping all your camping gadgets going. The Sherpa 100AC from Goal Zero took our top spot because no other compact power bank is so versatile.

Do portable solar panels have a battery bank?

Some portable solar panels also have an integrated battery bank. These chargers are usually designed to be used more like a portable battery pack and less like a solar panel because the solar panel often isn't big enough to reliably generate a lot of power from the sun.

Should you buy a portable solar battery charger?

A portable solar battery charger is a great option if you're taking an extended camping trip or traveling somewhere with an unreliable power grid, as it'll allow you to charge a phone the size of an iPhone 15 using just a few hours of midday sun.

What is the best solar charger for off-grid camping?

100 watts or more: These are the largest solar chargers that you can still pack away to move. They're the best energy-intensive devices and have fast charging speeds to keep your large battery banks or power stations full. A 110-watt panel is best for charging a large power station when off-grid camping.

Which solar panels are best for hiking & backpacking?

These are ideal for throwing in your backpack to charge your electronics while hiking and backpacking. 10 watts to 20 watts: Most of the smallest solar panels without an integrated battery. These are best for charging small devices or a separate battery pack while hiking, backpacking, or traveling.

What are portable solar panels for camping?

The majority of portable solar panels for camping are pretty minimal in terms of features. Most consist primarily of the panel and USB ports. Additional features include a pocket for cables, grommets or loops to attach the panels to a pack or tent, and on some, stands to help keep the panel upright and at the right angle.
