

# Projecta dc solar battery charger

Are Projecta DC/Solar dual battery chargers a good choice?

However, Projecta DC/Solar Dual Battery Chargers incorporate a host of additional features, as well as solving a host of other issues. Such as the inability of modern, variable-voltage charging systems to effectively charge an auxiliary battery. Or the voltage drop experienced by auxiliary batteries mounted a long way from the vehicle's alternator.

What is a Projecta Charger?

The Projecta charger is a type of battery charger that allows the user to select the type of battery being charged. It is excellent for various uses such as home handyman tasks, off-road driving, boating, and camping. The Projecta charger is fully automatic, safe, and easy to use, and maintains your battery in superior condition.

Is Projecta a good battery charger?

Projecta's PC800 is the perfect all-rounder for small to large batteries found in recreational vehicles, passenger vehicles as well as 4WDs and SUV's. Projecta's Pro Charge range are fully automatic, spark free, feature reverse polarity protection and can be left connected to a battery for pro long periods of time without the fear of overcharging.

How does the Projecta Intelli-IQ Charger work?

The charger employs efficient MPPT solar charging for optimal performance, even in shaded areas. It also includes a convenient lithium wake-up mode for one-button charging activation, even if the battery's BMS is off. The Projecta Intelli-IQ is a compatible companion for this product.

Is Projecta 25 amp DC a recurring or deferred purchase?

Projecta 25 Amp DC DC In Vehicle Batt... This item is a recurring or deferred purchase. By continuing, I agree to the and authorize you to charge my payment method at the prices, frequency and dates listed on this page until my order is fulfilled or I cancel, if permitted. What is a DC-DC Dual Battery Charger?

This easy to install Projecta DC-DC Charger is loaded with a host of safeguard features, including over/under voltage, anti-sparking, reverse connection and over temperature protection systems ...

Charge from solar and alternator inputs simultaneously, with market-leading temperature compensation for any climate. Control and monitor remotely via smartphone or Intelli-IQ ...

Projecta Intelli-Charge DC/Solar 3 Stage Battery Charger 25A 9-32V Features Advanced 3 Stage Charging Process Ensures safe and complete charge Dual input operation Simultaneous dual ...

This easy to install Projecta DC-DC Charger is loaded with a host of safeguard features, including over/under voltage, anti-sparking, reverse ...

# Projecta dc solar battery charger

Allows you to charge your 12V second/auxiliary deep cycle battery on the go, simultaneously from solar and alternator (9-32V) inputs. Provides an advanced 3 stage charging process to ...

Allows you to charge your 12V second/auxiliary deep cycle battery on the go, simultaneously from solar and alternator (9-32V) inputs. Provides an advanced 3 stage charging process to produce a safe and comprehensive charge, a must ...

A truly sophisticated dual battery management system ideal for 4WD and camper trailer applications. Provides an advanced 3 stage charge simultaneously from both solar and ...

**PROJECTA DC/SOLAR CHARGERS** The Projecta IDC25X Intelli-Charge DC to DC dual battery charger can be conveniently mounted in engine bays and subjected to harsh vibration, high ...

Ideal for the larger power requirements of caravans, motor homes and trucks, the IDC45 sets a new benchmark for DC-DC battery management, providing unrivaled performance and features.

Smart, powerful and rugged - the Projecta IDC25XIQ DC-DC Battery Charger delivers efficient 12V/24V battery charging with MPPT solar support, remote monitoring, and unmatched durability.

Allows you to charge your 12V second/auxiliary deep cycle battery on the go, simultaneously from solar and alternator (9-32V) inputs. Provides an advanced 3 stage ...

**PROJECTA DC/SOLAR CHARGERS** The Projecta IDC25X Intelli-Charge DC to DC dual battery charger can be conveniently mounted in engine bays and subjected to harsh vibration, high pressure water spray and extreme ...
