

Sao tome water storage project

Will Sao Tome rehabilitate the water sector?

In line with Government's strategy to revive the water sector, the project will build and rehabilitate infrastructure at the country's main water intake sources: the Agua Agriao and Agua Amoreira situated in the capital Sao Tome.

Will so Tom's improve water access?

Three out of four people on the Central African island of São Tomé will have improved access to drinking water. A EUR8.44 million loan from the European Investment Bank, guaranteed by the EU, is complemented by a EUR5.56 million EU investment grant and expert advice.

Does so Tom's need clean water?

Guaranteeing sustainable access to clean water for all is a strategic priority for São Tomé," commented Ginésio Valentim Afonso da Mata, Minister of Planning, Finance and Blue Economy. "Increasing pressure on our water resources as a result of climate change means that we need to act now."

How much money is needed to improve so Tom's water network?

At the United Nations 5th Conference for Least Developed Countries, the European Investment Bank and the European Union announced new Team Europe support of EUR14 million to improve the water network on the island of São Tomé.
