

# Schumacher solar battery maintainer

How does the Schumacher SP-200 solar battery maintainer work?

The Schumacher SP-200 2.4W Solar Battery Maintainer helps optimize the health of your battery, maintain a full charge, and extend your battery's life. Simply connect the color coded clamps to the battery or plug the 12V DC adapter into the vehicle's 12V DC accessory outlet and position the unit.

What is a Schumacher SP-400 solar battery maintainer?

Designed for batteries in boats, cars, motorcycles, trucks, RVs and more. When a car, motorcycle, truck, or other vehicle battery needs to be kept charged and fully maintained far from an outlet, look no further than Schumacher's SP-400 4.8W Solar Battery Maintainer.

What is Schumacher's 5W 12V solar battery charger and maintainer?

Schumacher's SA15895W 12V Solar Battery Charger and Maintainer is portable and compact, allowing you to charge your vehicle's battery off-grid and far from civilization. The SA1589 features three built-in monocrystalline solar panels that convert the sun's energy into up to 5W of power to trickle charge and maintain 12V batteries.

What is a Schumacher solar maintainer?

Since 1947, Schumacher has been designing and producing industry-leading power conversion technology. Schumacher's current range of solar products feature the latest technology and rugged construction for reliable power wherever you are. A solar maintainer is an easy way to ensure your power sport batteries are ready when you are.

Can a solar battery maintainer charge a 12V battery?

Harness the power of the sun to trickle charge your vehicle's 12V battery with Schumacher's SP-200 2.4W Solar Battery Maintainer. With the SP-200, you can ensure a healthy, fully charged battery wherever you are, without the need for an electrical outlet or battery pack.

How much power does a Schumacher maintainer take?

The Schumacher maintainer can deliver a 15W charge to 12V acid-lead batteries. It requires no outside electricity source and includes a charger, 12V DC adapter, clamp adapter, mounting screws, and user manual, as well as the Schumacher SPC-7A charge controller for added overcharge protection.

This Schumacher Solar Battery Maintainer lets you harness the power of the sun to trickle-charge your 12V battery and help extend battery life. With amorphous solar technology, this unit charges even in cloudy conditions.

Equipped with both DC and clamp adapters, this solar maintainer is a lightweight, user-friendly solution for maintaining a 12V lead-acid battery while on the road, at the lake, or working at a ...
