

Schumacher sp-400 solar battery charger

What is a Schumacher SP-400 solar battery maintainer?

Designed for batteries in boats, cars, motorcycles, trucks, RVs and more. When a car, motorcycle, truck, or other vehicle battery needs to be kept charged and fully maintained far from an outlet, look no further than Schumacher's SP-400 4.8W Solar Battery Maintainer.

Does Schumacher have a battery charger?

With Schumacher's well-rounded 50A 12V Fully Automatic Battery Charger, Engine Starter, and Boost Maintainer, anyone can charge a battery, whether they're stuck on the side of the road or storing their RV over the winter. This battery charger has the power to do it all.

What is a Schumacher SP-400 solar maintainer?

The Schumacher SP-400 is a solar maintainer designed for off-grid use to maintain a 12V battery without access to the electric grid. Trusted by professional mechanics and automotive enthusiasts for high-quality and innovative products, Schumacher Electric offers this solar maintainer.

What is a Schumacher solar maintainer?

Schumacher, since 1947, has been designing and producing industry-leading power conversion technology. Their current range of solar products features a solar maintainer, which is an easy way to ensure your power sport batteries are ready when you are. These solar products incorporate the latest technology and rugged construction for reliable power wherever you are.

Does Schumacher electric have overcharge protection?

For additional overcharge protection, consider the SPC-7A Charge Controller, also available from Schumacher Electric. Additional features: • Delivers a 4.8-watt trickle charge

How do you install a solar panel on a Toyota SP-400?

To install the Schumacher Solar Battery Charger and Maintainer - 4.8 Watt on a Toyota SP-400 for charging a battery, connect the color coded clamps to the battery or plug the 12V DC adapter into the vehicle's 12V DC accessory outlet and position the unit. The SP-400 employs amorphous solar technology, which allows it to absorb more light than other solar panels.

Schumacher's Electric Solar Battery Charger is designed to trickle charge and maintain 12V lead-acid batteries without electricity. The rugged, water-resistant design needs minimal ...
