What is Singapore's first utility-scale energy storage system?

Singapore's First Utility-scale Energy Storage System Through a partnership between EMA and SP Group, Singapore deployed its first utility-scale ESS at a substation in Oct 2020. It has a capacity of 2.4 megawatts (MW)/2.4 megawatt-hour (MWh), which is equivalent to powering more than 200 four-room HDB households a day.

What is a professional energy storage system company?

As a professional energy storage system company, we provide a full range of energy storage products and solutions such as lithium battery system (BMS), bidirectional converter (PCS) and energy management system (EMS), and support your energy storage business in all directions and change the world energy pattern together!

What is ESS access & how does it work in Singapore?

Led by EMA, the ACCESS programme helps to facilitate ESS adoption in Singapore by promoting use cases and business models. It also looks at securing space, marrying demand with solution, and facilitating regulatory approvals for ESS deployment. Singapore's First Utility-scale Energy Storage System
