Who are the best solar companies in Sacramento?

Here's everything you need to know about the best solar companies in Sacramento: With plenty of experience in the energy-saving industry, Sunrise Energy Solutions is worth considering in the Sacramento, California area. Sunrise offers residential and commercial solar system installations, including roof and ground-mounted options.

Is Sacramento a good location for solar power?

With an average of 285 days of sun per year, Sacramento is a prime location for solar power. There are many solar companies in California that service Sacramento from North Sacramento to Meadowview or anywhere else. We reviewed them to let you know what companies are the best. Here are our findings.

How much does solar cost in Sacramento?

The average price of solar is about \$2.14 to \$3.22 per watt in Sacramento, so anything in that range is a fair price. Some prices may be too good to be true. If your installer quotes you way below the average price in your area, proceed with caution.

Do Sacramento residents pay more for solar?

Because of Sacramento's ever-growing population, with current numbers over 525,028, the city maintains a cost of living that's higher than the national average. Accordingly, Sacramento residents typically pay more for local services. When it comes to solar installations, though, this may not be the case.

Does Arvo solar Sacramento offer solar services?

Arvo Solar Sacramento offers residential and commercial customers a wide range of solar services. These include solar systems and home batteries, as well as solar patios and parking structures. Customers in the Sacramento, California area should consider Solectric for its menu of solar services.
